TIME SIGNATURE

You should have noticed that all of our bars have had exactly four counts all the time and that always, we have used the Crotchet to be one count. We will learn in future lessons how to change both of these things. If we can have a different no. of counts in a bar and can use different note shapes to be one count, we need a way of seeing which is which. To do this we use a "Time Signature" which is a group of two numbers, one above the other. The top number tells us the no. of counts in the bar (in this case Four) and the bottom no. tells which note shapes will be one count.

We know that we have been using a crotchet for one count so how do we get a number to mean one crotchet. Because the biggest note in common usage is a Semi-breve*, and there are four Crotchets in a Semibreve, we will use the no. 4 to represent one Crotchet.

We will now insert the $\frac{4}{4}$ time-signature into the stave immediately after the Clef.

* Yes, if there is a semi-breve, there must also be a breve. Because of its value of 8 beats, it is now too cumbersome and, rarely used in today's style of music.

No 6.16 - COMPLETE THE FOLLOWING BARS WITH RESTS

1412 1415 1418

Musical notation for measures 1412-1418. The notation is in 4/4 time and treble clef. Measure 1412 starts with a quarter rest, followed by a quarter note G4, an eighth note F#4, and an eighth note E4. Measure 1413 has a quarter note D4, a quarter note C4, and a quarter note B3. Measure 1414 has a quarter note A3, a quarter note G3, and a quarter note F3. Measure 1415 has a quarter note E3, a quarter note D3, and a quarter note C3. Measure 1416 has a quarter note B2, a quarter note A2, and a quarter note G2. Measure 1417 has a quarter note F2, a quarter note E2, and a quarter note D2. Measure 1418 has a quarter note C2, a quarter note B1, and a quarter note A1. The piece ends with a double bar line.

REVISION OF TIES

A tie is a musical plus sign which adds two notes of the same pitch, together, to form one new note.

The sign for a tie is the same as the sign for a slur.

Before you play the next exercise, write the new count value of the tied notes.

No 6.17 - TIES - Write in the note values and, the Tie value.

[illegible]

LET'S TRY A DIFFERENT TIME SIGNATURE

The next time signature has a 3 on top so we count three beats to the bar.
The bottom number is still 4, so we still have one beat to a crotchet

COMMON TIME

One thing about $\frac{4}{4}$ time is that the majority of music is written with this time signature. Because it is most common to use this time signature, it is given the nick name of "Common Time" and we may use the abbreviation "C" to represent the $\frac{4}{4}$ time signature. Listen to your favourite tunes and hear how many are in a cycle of four counts. We can't see the written music but it is fair to assume that crotchets are being used to represent one beat. Did you hear any that are not in 4. Some examples are:

2 - "Colonel Bogey"

3 - "Away in a Manger" and the pipe band tune "A Scottish Soldier"

5 - "Everything's Alright" from "Jesus Christ, Superstar"

6 - "Click go the Shears" (although you may more easily hear two counts divided into three sub beats each, thus $3+3=6$)

7 - The original theme to "The Bill" and the Daly Wilson Big Band's version of "Tie Me Kangaroo Down"

8 - The Chase theme from the movie "Man from Snowy River" (although you may hear 3 counts where the first two are split into 3 and the third split into two, thus $3+3+2=8$)

9 - Jesu, Joy of Man's Desiring ($3+3+3=9$)

10 - Mission Impossible ($3+3+2+2=10$)

11 - Skirting On The Surface by "Smile" (RadioHead) ($3+3+3+2=11$)

12 - "Memory" from "Cats" ($3+3+3+3=12$ (listen for the bar that is in 10))

13 - Opening to Skimbleshanks" from "Cats" ($3+3+3+4$)

SPECIAL NOTE FOR THE REPEAT IN THE NEXT SONG

All previous tunes with a repeat, have ended at the repeat sign. In the next tune, there is more music after the repeat.

The normal convention now is that after the repeat has been done, at the end of the second time playing through the song, play what comes next which in this case, is just one bar. Note also that in this tune, the repeat does not go all the way to the beginning.

Common point of confusion: To repeat once, is to play it twice. One day you might be asked to repeat twice which means to play it three times.

With "When the Saints", pay particular attention to the fact the the 1st beat of some bars is a rest.

CODA

Coda is the Latin term for "tail" and, a tail is usually at the end. The one extra bar (1465) is the tail that has been added on to be the "end" of the song. Therefore that bar is called the "Coda". When ever you are asked to play the Coda - it is the tail piece at the end. In future lessons, the Coda may be several bars long.
